GreenGro Ultrafine is a soluble blend of Mycorrhizae, beneficial bacteria, kelp, and humic acid. This highly effective and easy to use all-in-one product will dramatically improve the health and vigor of your root systems. The ultrafine blends are perfect for hydroponic and soil drench applications. Great for all types of soft rooted plants such as: fruits, vegetables, herbs, and flowers.

**PREMIUM ULTRAFINE**

**KING OF MYCORRHIZAE**

**FORTIFIED WITH KELP, HUMIC ACID AND BENEFICIAL BACTERIA.**

**SOIL AMENDING INGREDIENTS**
- **Glomus intraradices:** 20 spores per g.
- **Glomus deserticola:** 5 spores per g.
- **Glomus etunicatum:** 5 spores per g.
- **Glomus clarum:** 5 spores per g.

**BENEFICIAL BACTERIA**
- **Bacillus subtilis:** \(1.5 \times 10^9\) CFUs per g.
- **Bacillus licheniformis:** \(5.5 \times 10^9\) CFUs per g.
- **Bacillus amyloliquefaciens:** \(3.75 \times 10^9\) CFUs per g.
- **Bacillus thuringiensis:** \(6.25 \times 10^8\) CFUs per g.
- **Bacillus polymyxa:** \(2.5 \times 10^8\) CFUs per g.

10% Humic Acid (Derived from Leonardite)

**INSTRUCTIONS FOR USE**

**WATERING IN**
Mix in one tablespoon per gallon of water and apply to soil at base of plants (a stronger dose can be used as needed without harm). Make sure solution is mixed well before applying. For transplants, dip root systems in solution or touch damp roots in dry product and water thoroughly after planting. Will treat 80 one-gallon plants.

**HYDRO**
1 teaspoon per gallon.

**COMPOST TEA**
Use 16 ounces per 80 gallons of tea as a soil drench. Apply tea at normal rate.

**STORAGE**
If stored in a cool, dry environment, product will stay viable for 24 months.
Our Granular Plus Mycorrhizae blend is a unique formula of carefully selected mycorrhizal fungi and beneficial bacteria. These specific species of arbuscular mycorrhizae and bacillus bacteria work together to increase the surface area of your root zone and aid in nutrient uptake as well as increased resistance to disease and environmental stress. GreenGro Granular Plus Mycorrhizae is also fortified with kelp and humic acid. Granular Plus can be applied at the time of transplant for season long benefits. GreenGro Granular Plus is also a great ingredient in compost teas and soil mixes.

**SOIL AMENDING INGREDIENTS**

- *Glomus intraradices*: 100 spores per g.
- *Glomus deserticola*: 25 spores per g.
- *Glomus etunicatum*: 25 spores per g.
- *Glomus clarum*: 25 spores per g.

**BENEFICIAL BACTERIA**

- *Bacillus subtilis*: $1.5 \times 10^8$ CFUs per g.
- *Bacillus licheniformis*: $5.5 \times 10^8$ CFUs per g.
- *Bacillus amyloliquefaciens*: $3.75 \times 10^8$ CFUs per g.
- *Bacillus thuringiensis*: $6.25 \times 10^8$ CFUs per g.
- *Bacillus polymyxa*: $2.5 \times 10^8$ CFUs per g.

10% Humic Acid (Derived from Leonardite)

**INSTRUCTIONS FOR USE**

**SOIL**

Pour a tablespoon in each potting hole, or mix product liberally into the top 4-6 inches of soil (higher doses can be applied without harm). 16 ounces will treat 40 one-gallon plants.

**STORAGE**

If stored in a cool, dry environment, product will stay viable for 24 months.
Earthshine Biochar Blend is a fast, easy way to boost the performance of new soil, reuse your old soil, and improve effectiveness of compost teas and Mychorrhizae products. This amazing product will save any gardener money by reducing soil costs, improving nutrient availability, and reducing water use over the gardening season. Biochar is well known for its abilities to dramatically increase soil carbon levels which directly contribute to healthy thriving soil.

EARTHSUNE
BIOCHAR BLEND

INSTRUCTIONS FOR USE

SOIL
Recycling old soil, boosting new soil, compost tea accelerator, and top dress micro nutrient.

APPLICATION RATES
Transplant: 1 tablespoon per 6-inch potting hole
Recycling Soil: 1 pound per 4 cubic feet of soil
Boosting New Soil: 1 pound per 6 cubic feet
Compost Tea: 1 to 2 tablespoons per 5 gallons
Large Application: 30 pounds will treat 1 pallet of new soil or 2 cubic yards of old soil.

EARTHSHINE
GUARANTEED ANALYSIS
Total Nitrogen (N): 1.62%
Available Phosphate (P$_2$O$_5$): 0.22%
Soluble Potash (K$_2$O): 0.55%

DERIVED FROM
Glacial rock, soybean meal, worm castings, and Biochar

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS
Humic acid: 5%
WATER CONDITIONER

GreenGro Premium Water Conditioner balances the conditions in water to greatly improve your ability to grow healthier, more productive plants. Much of the water that we pull from the tap in cities is treated. It may include chlorine, chlorides, chloramines, and other sanitizing ingredients. Additionally, trace heavy metals and other toxic agents may be found. GreenGro Water Conditioner solves all of these common problems by eliminating or neutralizing them on contact.

WATER CONDITIONER

BENEFITS
- Removes chlorine (up to 5mg/l)
- Destroys chloramines
- Detoxifies heavy metals
- Provides essential electrolytes

8 ounces will treat 1,000 gallons of water

INSTRUCTIONS FOR USE

WHEN TO USE
- First time tank or reservoir use.
- Before or after adding or changing water.
- Before adding fish/aquatic life or plants.

DIRECTIONS
- Use 1-2 teaspoons (5-10ml) per 40 gallons of water. For larger applications, use 1 fluid ounce (30ml) per 250 gallons.

WARNING
- Do not use more than recommended. Nontoxic to humans, pets, and aquatic life.
- Do not use with Permanganate-based treatments. This product is not for use with fish intended for human consumption.
In ancient times, the indigenous people of the Amazonian basin utilized biochar amendments to improve their soil and provide long-lasting fertility. Today, this innovative powdered blend combines premium fertilizers with biochar to create a simple-to-use formula that provides the soil nutrition necessary for vigorous vegetative growth.

- Bacillus polymyxa: 4.0 X 10⁷ CFUs per g.

3% Humic Acid (Derived from Leonardite)

INSTRUCTIONS FOR USE

BEFORE PLANTING
Start the season by tilling in 1 cup of Pride Lands Veg into each cubic foot of soil media used in new planting and gardens

TOP DRESSING
During flowering, apply up to 1 cup of Pride Lands Veg to a 4’x4’ surface area, up to once a week. Apply to damp soil and water in thoroughly following application.

FOR CONTAINER PLANTS
Apply 1 tablespoon as a top dress per gallon of media, once per week.

INDOOR SOIL MIX
thoroughly mix in 2 tablespoons per gallon of media and water after planting.
BLOOM 2-5.5-5.5
PRIDE LANDS

In Ancient times, the indigenous people of the Amazonian basin utilized Biochar amendments to improve their soil and provide long lasting fertility. Dextrose (Derived from Wood Pulp): 1%

INSTRUCTIONS FOR USE

WATER IN
1-2 tablespoons per 5 gallons of purified water. Small application: 1-2 teaspoons per 1 gallon of purified water.

COMPOST TEA
1 tablespoon per 5 gallons of pre brewed tea.

FOLIAR
1 tablespoon per gallon of purified water, only after dawn or dusk and give plants sufficient time to dry before exposing to light.

NATURE’S BRIX 0-0-2

Nature’s Brix is a premium blend of carbohydrates, simple sugars, rock dust, and other quality ingredients. It is intended to help increase brix levels and resin production. Additionally, Nature’s Brix can be used as a microbe food in compost tea production. For best results, use throughout the entire flowering cycle.
PREMIUM POTTING SOIL

INGREDIENTS
Coco fiber, sphagnum peat moss, peat humus, perlite, dolomite lime (ph adjuster), oyster shell (ph adjuster), feather meal, bat guano, fish meal, seabird guanos, alfalfa meal, volcanic ash, blood meal, crab meal, rock phosphate, fish bone meal, glacial rock dust, sulfate of potash, langbeinite, kelp meal.

FEATURES
- Five weeks of food
- Biologically activated
- High quality worm castings
- Rare sponge humus
- Trace minerals
- Contains diversity of organic amendments
- Water conserving
- With Earthshine biochar blend

INSTRUCTIONS FOR USE
Water one to three times per week according to your plant’s needs. For best results, feed with organics and compost tea. We recommend using GreenGro Granular Plus Mycorrhizae when transplanting into Pride Lands soil.

PREMIUM POTTING SOIL
PRIDE LANDS

For indoor, greenhouse, and outdoor use. Pride Lands Premium Potting Soil is a ready-to-use soil that is suitable for all containers types. Pride Lands Premium Potting Soil holds moisture well in most environments.

GREENGRO HEMP PODS 4-1-1

GreenGro Hemp Pod planter packets are an inexpensive and easy way to ensure your new plantings get a vigorous start. The dissolvable pouch allows for a simple and controlled application of fertilizer, humic acid, biochar, and microbes directly in the root zone. The packets are specifically designed for industrial hemp plantings but are equally effective with other field crops.

- Softwood Biochar 1.0%

INSTRUCTIONS FOR USE

Drop one 30g packet into transplant hole before planting.
Pride Lands Defense is a unique blend of nutritive soil amendments and pest repellent - organic herbs and spices. Used as a top dress with soil or soil-less growing mediums, Pride Lands Defense will give growers long lasting pest prevention as well as condition your soil prior to planting. You can also brew a tea with Pride Lands Defense and apply it as a foliar spray to treat the canopy of your plants. Use that same tea to spray Pride Lands Defense around the perimeter of your greenhouse or at the entrance to your indoor garden to keep pests from entering. Pride Lands Defense is a non toxic product that is safe to be used around children and pets and is completely harmless to humans and animals.

**Active Ingredients**
Garlic, cloves, cinnamon, peppermint, white pepper

**Inert Ingredients**
Oyster shell, Mustard Powder, Soybean Meal, silica, cottonseed meal

**Instructions for Use**
Use with soil or a soil-less growing medium. Pride Lands Defense is a coarse powder and is not suitable for hydroponic applications unless applied as a foliar spray (see foliar instructions below).

**Top Dressing:**
Add 1 dry tablespoon per gallon of growing media or 1 dry cup (8 oz by volume) per 4’x4’ of soil surface. Top dress the product around the base of the plant, lightly scratch it into the surface of the soil and lightly water it in.

**Tea / Foliar:**
Add 1-2 dry teaspoons per gallon of water or 1 cup (8oz) by volume per 50 gallons to your regular compost tea recipe. Brew for 12-24 hours, then spray liberally onto both top and underside of leaf surface. You can dilute the tea as desired. For best results, do not dilute more than 50/50 with pure water. Do not apply spray in direct sunlight or intense artificial lighting. Apply in the morning or early evening light or just before lights turn off.
HEMP HYBRID VEG

HEMP HYBRID VEG 12-12-12

Hemp Hybrid Veg is a new and unique product which combines the potency and solubility of mineral salts with the wholesome benefits of organic ingredients. Hemp Hybrid Veg has been designed specifically for the new generation of hemp growers who demand a higher quality fertilizer than the commonly available, agricultural grade salts. Hemp Hybrid Veg is a water soluble fertilizer which can be applied via any irrigation system as a root drench or as a foliar spray.
